Parties by median preferred policy: illicit drugs, with cannabis vs alcohol and tobacco

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: cannabis, psychedelics, MDMA, cocaine, speed, heroin; y: alcohol, tobacco and vapes. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
Geen mening excluded; non-voters, blank, Anders and DENK (n = 1) left out. Vote: TK 2025.

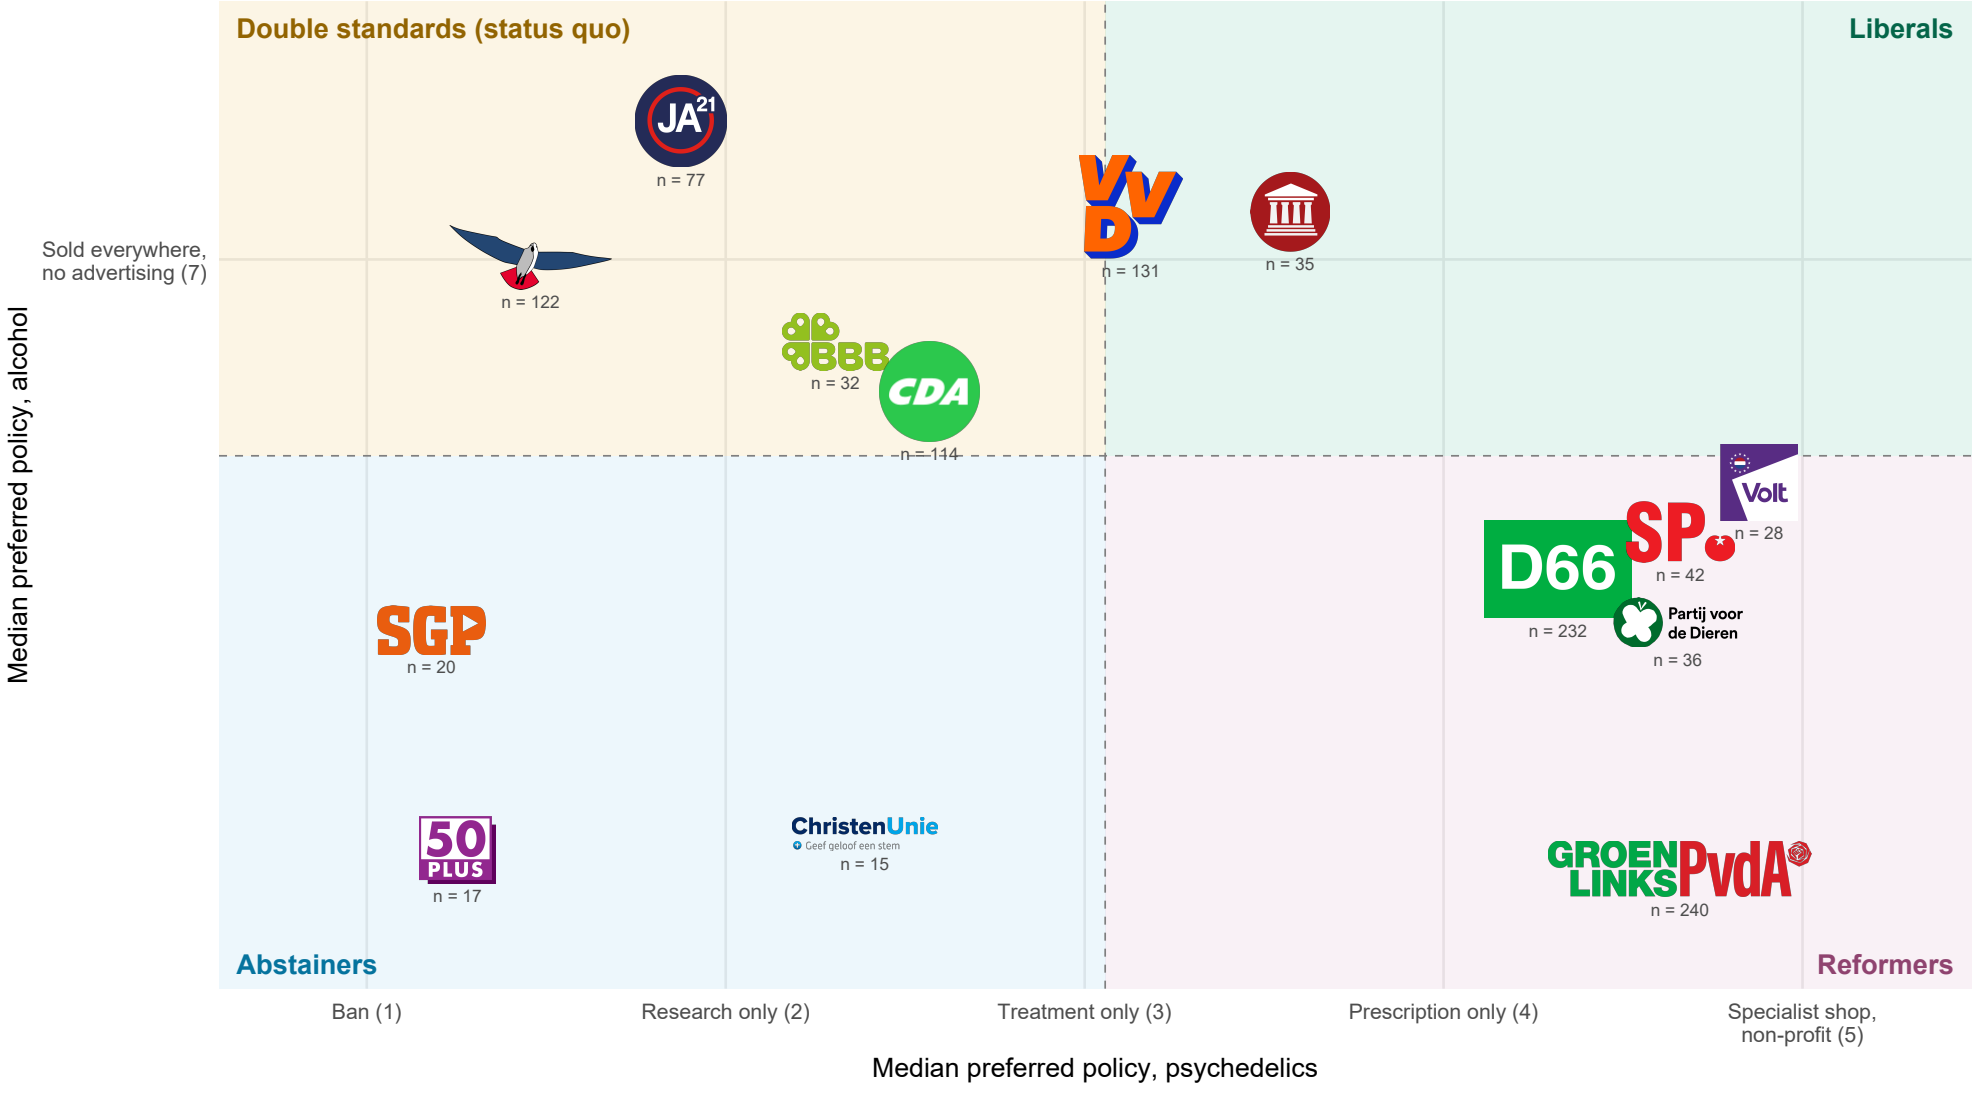

Parties by median preferred policy: cannabis vs alcohol

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: cannabis; y: alcohol. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
Geen mening excluded; non-voters, blank, Anders and DENK (n = 1) left out. Vote: TK 2025.

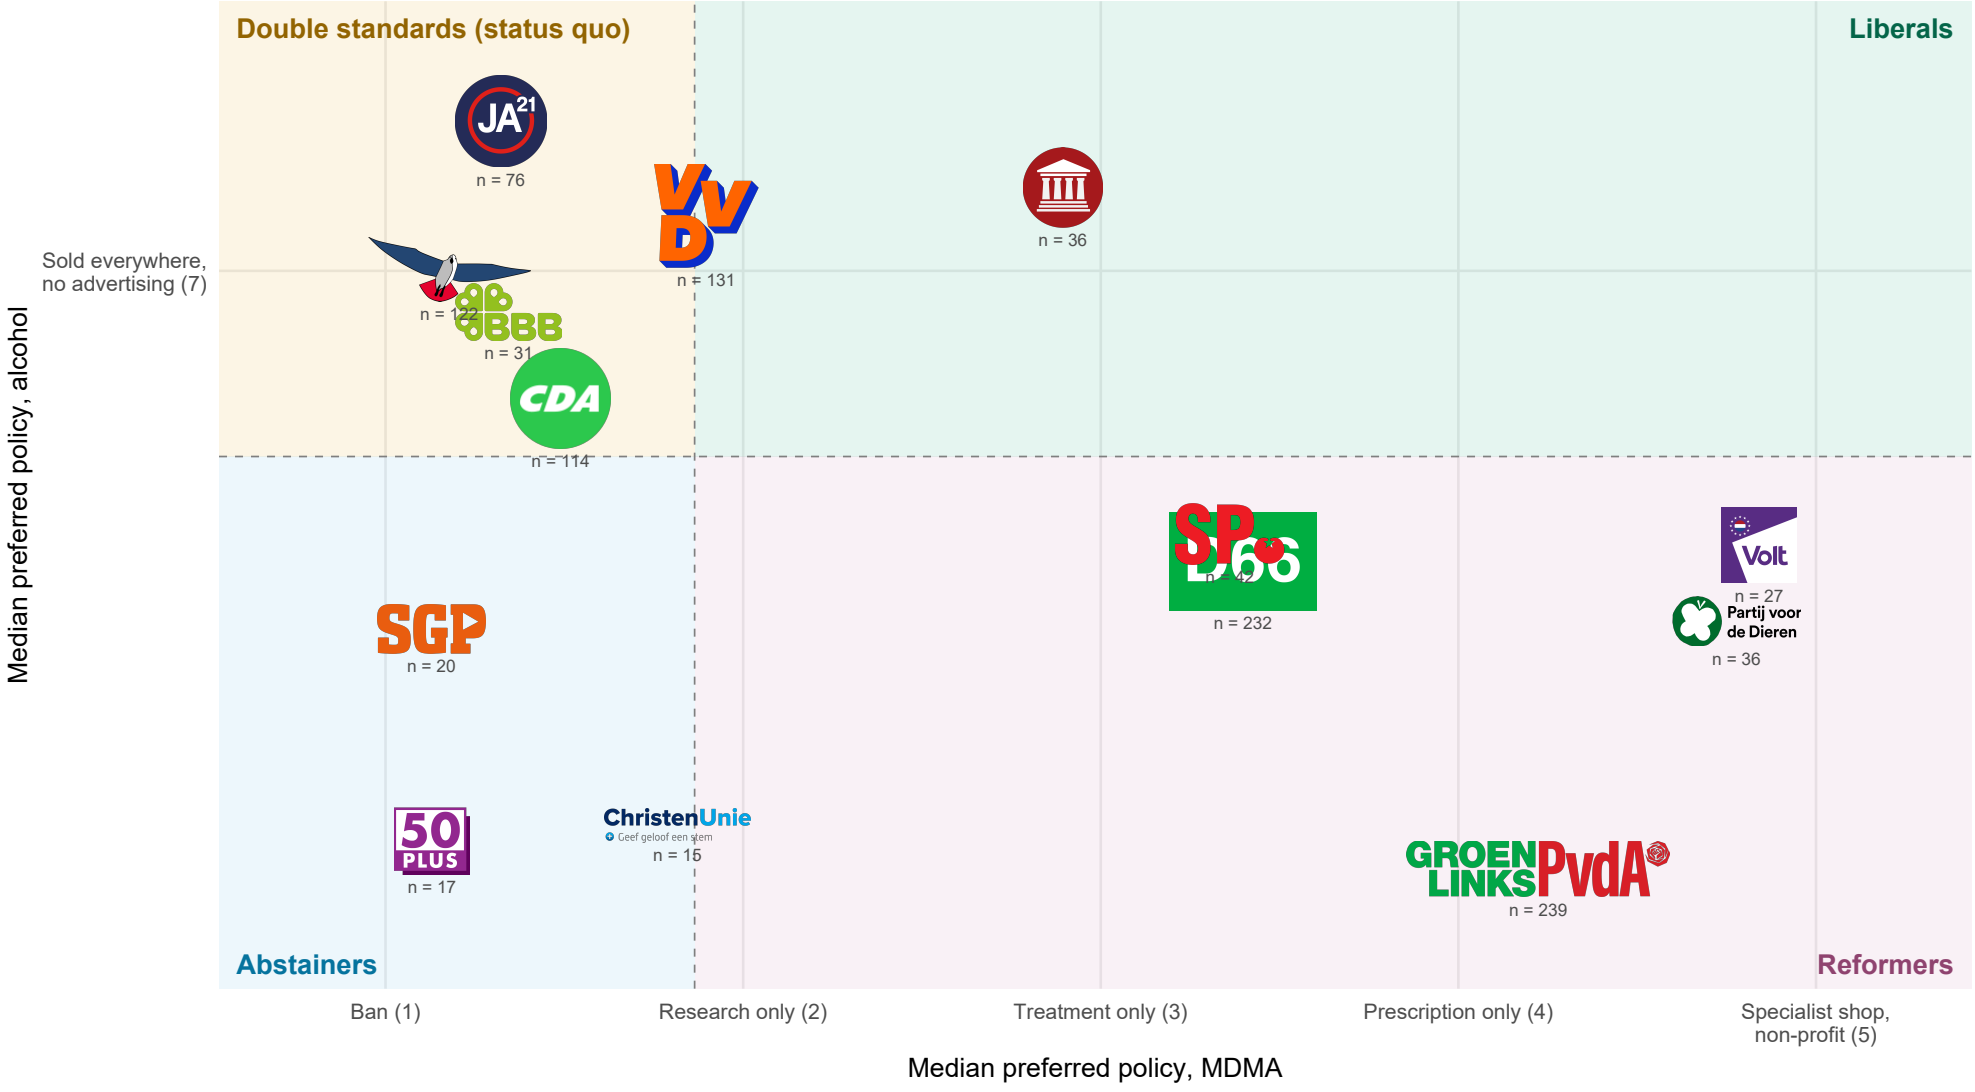

Parties by median preferred policy: psychedelics vs alcohol

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: psychedelics; y: alcohol. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
Geen mening excluded; non-voters, blank, Anders and DENK (n = 1) left out. Vote: TK 2025.

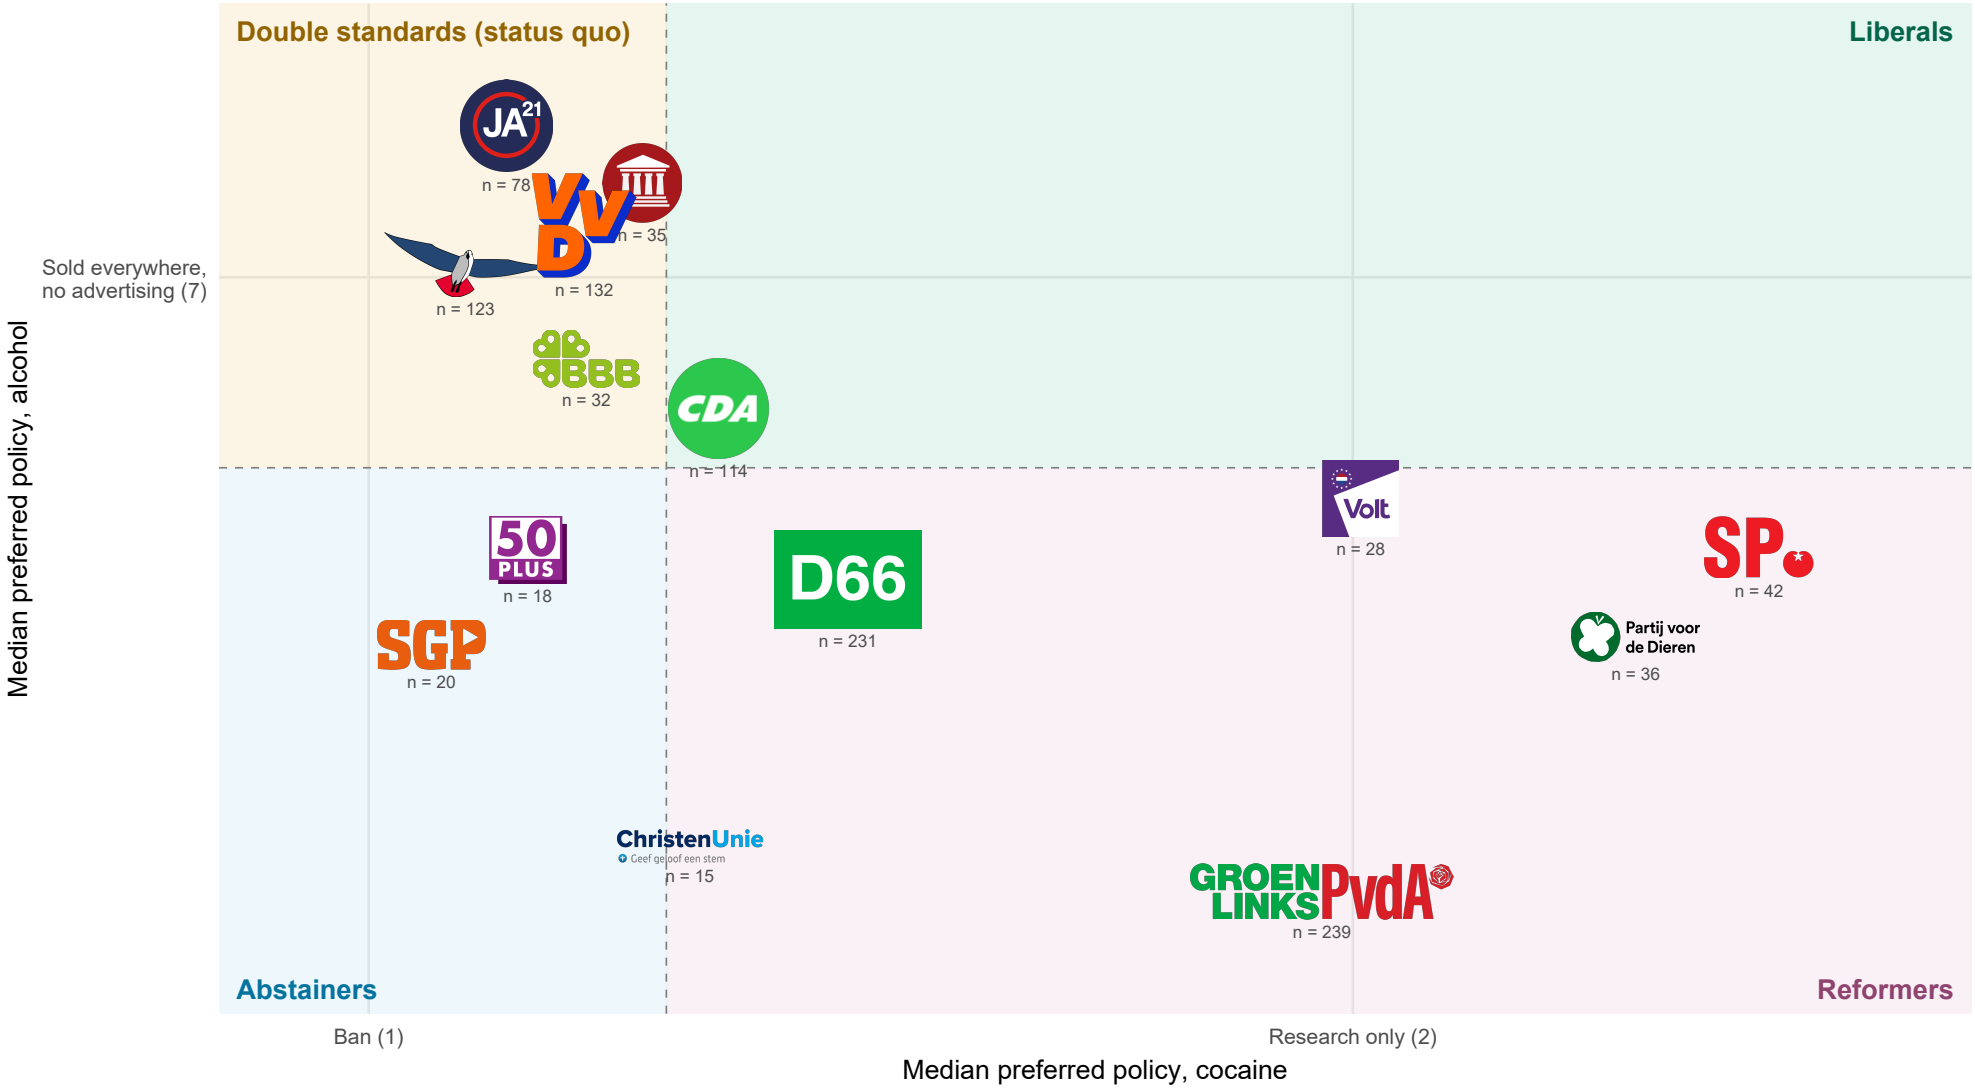

Parties by median preferred policy: MDMA vs alcohol

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: MDMA; y: alcohol. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
Geen mening excluded; non-voters, blank, Anders and DENK (n = 1) left out. Vote: TK 2025.

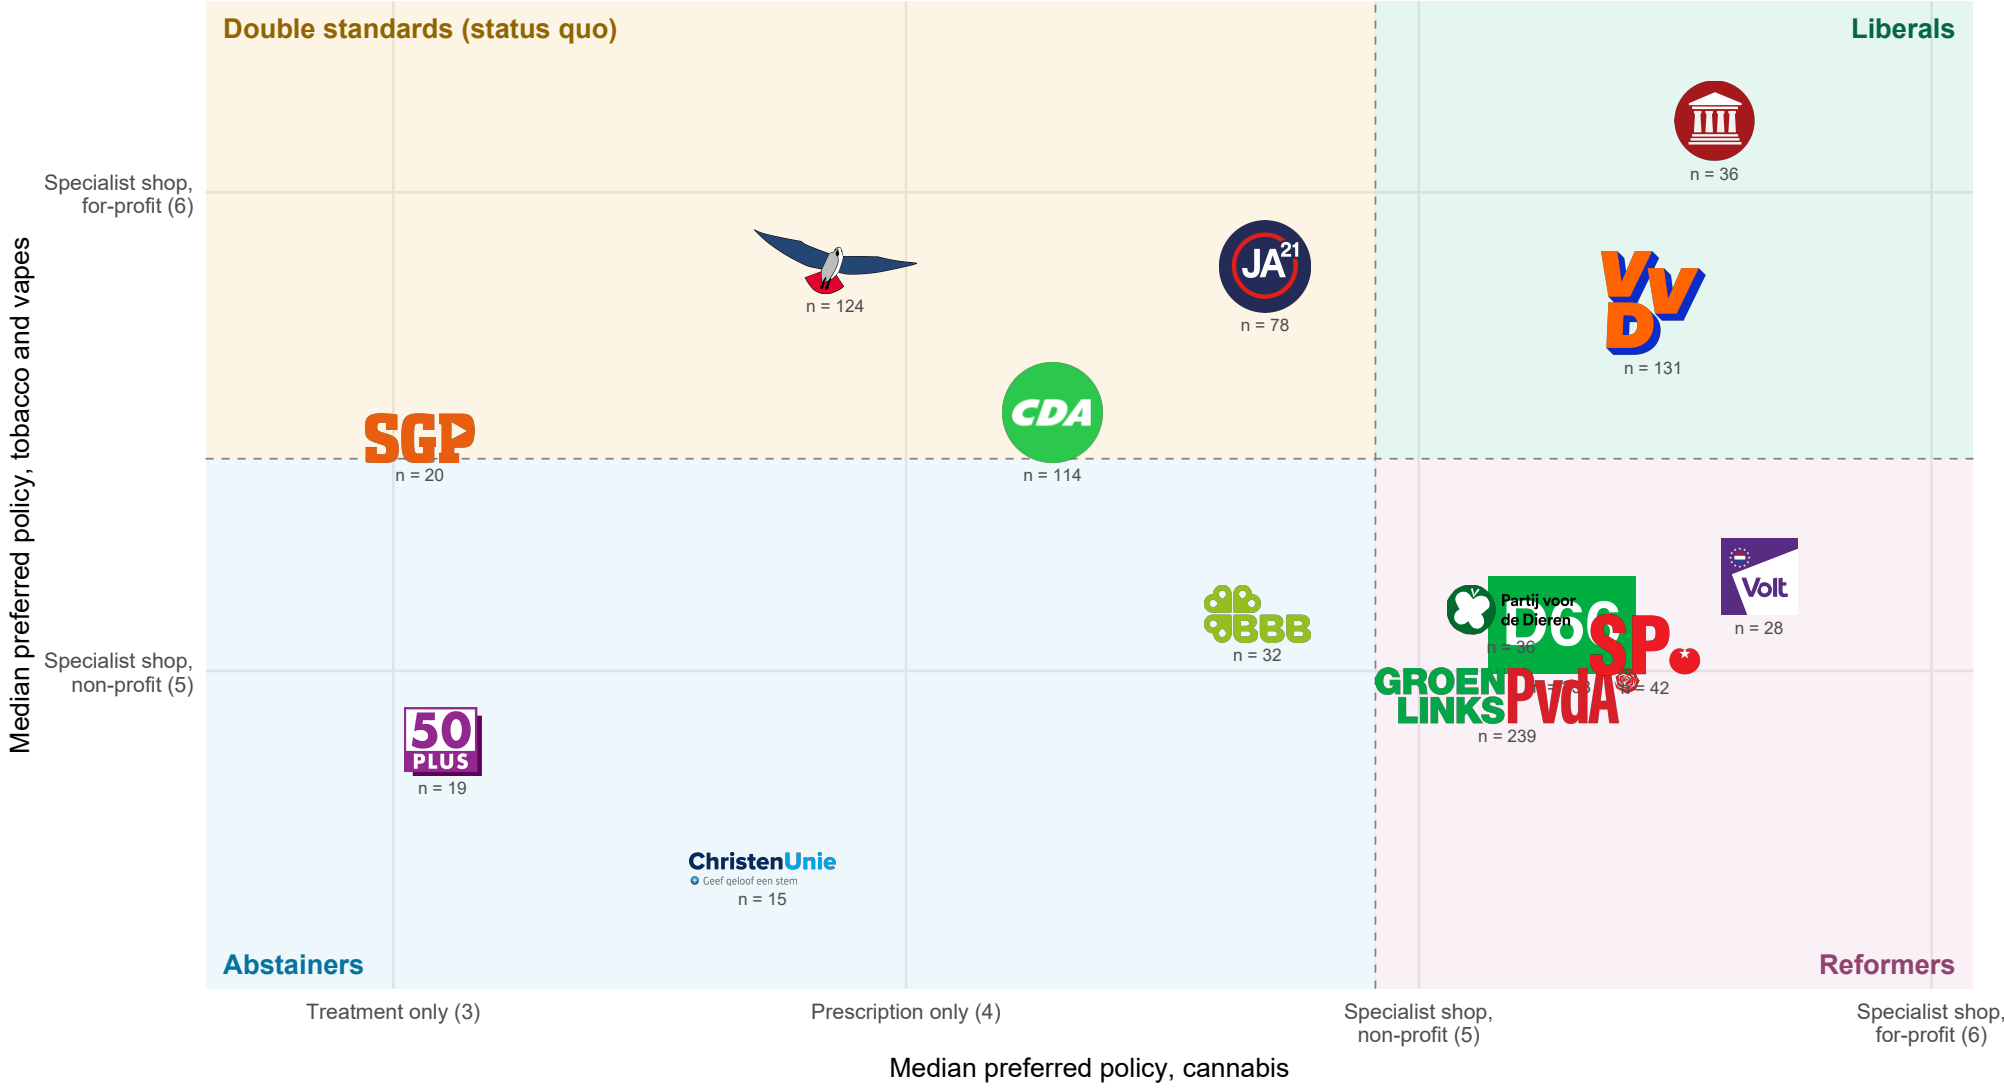

Parties by median preferred policy: cocaine vs alcohol

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: cocaine; y: alcohol. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
Geen mening excluded; non-voters, blank, Anders and DENK (n = 1) left out. Vote: TK 2025.

Parties by median preferred policy: cannabis vs tobacco and vapes

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: cannabis; y: tobacco and vapes. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
Geen mening excluded; non-voters, blank, Anders and DENK (n = 1) left out. Vote: TK 2025.

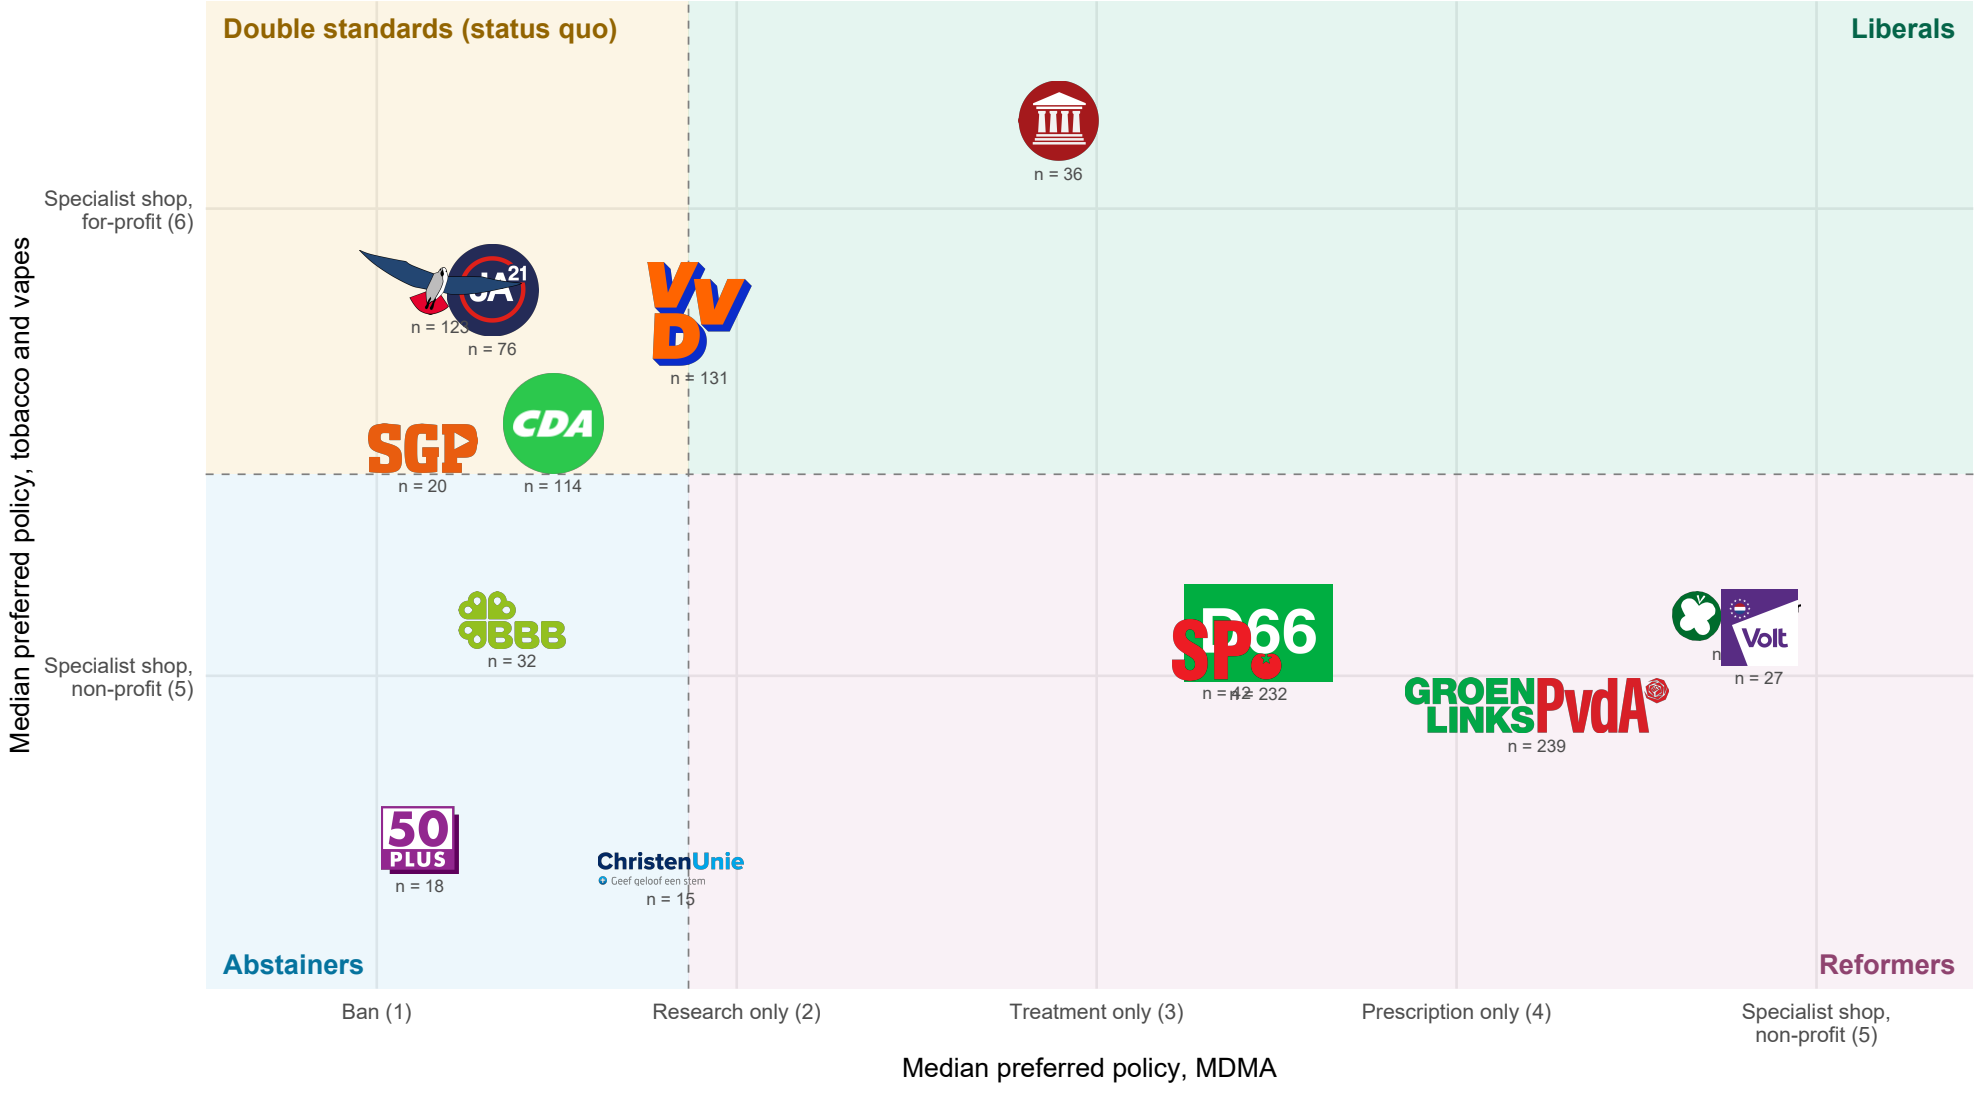

Parties by median preferred policy: psychedelics vs tobacco and vapes

Per party the weighted median of all its answers on the drugs of an axis, interpolated within the median answer (grouped-data median), so parties with the same median answer still differ.
x: psychedelics; y: tobacco and vapes. Dashed lines = median of all answers.
Axis ranges fitted per page and per axis. Logo size reflects n.
